TRY THE TREND

Stay ahead of the curve with a fresh new look for decking. On-trend grey tones, such as Urban Slate will bring a modern edge – it's the perfect natural backdrop to your garden

INSPIRED BY NATURE

Taking inspiration from the flower and fauna all around us, our Garden Shades colours create the perfect blend. Just like trees, soil and stone, our Nature's Neutrals work best for larger spaces; think decking and fences. Whilst Nature's Brights add impact on smaller items, just as flowers in bloom bring plenty of colour.

4hrs

STEP BY STEP

1

15 minutes

Brush away any loose leaves and dirt.

2

1-2 hours

Remove algae and moss with warm, soapy water.

3

1 hour

Apply stain with a woodcare brush or deep-pile roller.

4

45 minutes

Once dry, apply a second coat for even coverage.

FIRMLY ROOTED

Leave your deck untreated and algae and mould will quickly move in, making it super slippery in no time. Our decking stain is specifically formulated with anti-slip technology.

PATIO TABLE

STEP BY STEP

5 minutes
Mask off a strip down the centre of a table.

10 minutes
Paint with Garden Shades Terracotta.

2 hours
Sand and paint a window box. Attach two brackets.

30 minutes
Screw to the underside of the table and add plants.

STYLE IT UP

Brimming with gorgeous on-trend hues, the Nature's Brights collection has every colour possible for your upcycling projects. Inspired by bright fruits and flowers, the shades will lift any scheme and make your outdoor accessories sing.

TURN TIRED COOKWARE INTO QUIRKY PLANT POTS

COOKING PANS

Old pots filled with plants look surprisingly pretty on balconies and in the garden. Paint them in Hammerite Smooth Direct to Rust – a formula that protects metal – and you can trust they'll stay looking great for longer, despite our (not-so) trusty Irish weather. Just paint the pots then, when dry, place a layer of gravel for drainage, followed by compost, then plant up.

COLANDERS

For fun, quirky hanging baskets, how about using metal colanders? Simply paint the outsides in Hammerite, trim a hanging-basket liner to fit inside, then fix to rope or a sturdy chain. Fill with compost and colourful plants or aromatic herbs, such as creeping thyme and winter savory. Skip ahead to page 14 to see how you can turn old tins into planters, too.

NATURE'S HACKS

Get outside and give yourself a boost with these cheerful creations – try a vibrant home office, fairy garden for the kids or a stylish al fresco bar

1 GARDEN OFFICE - FOR HOME WORKING

Working at home more often and in need of a place to concentrate? Give the shed a lick of paint and create a new home office. Cover the inside and out with two coats of Cuprinol Ducksback in Forest Green or any colour of your choice. Pop in a desk, chair and your office essentials to create the ideal spot to focus and get those creative cogs whirring.

2 OUTSIDE BAR - FOR SUMMER HOSTING

Getting together with others to celebrate is always special. Make it a moment to remember with your own bar for hosting drinks. A few pieces of timber and a lick of paint is all you need. Fix wood lengths together to form a box and attach a door with hinges. Paint two coats of Cuprinol Ducksback in Black. When dry, load with your favourite glassware and tipples.

3 FAIRY GARDEN - FOR FAMILY TIME

Bring some fun to your garden by creating a playful fairy scene – it'll keep the little ones entertained for hours. It's quick and easy to do, and the kids can help make it, too. Apply two coats of Garden Shades in Pebble Trail to an old plant pot, then add a layer of gravel and compost. Pop in some pebbles, moss and folklore figurines.

WAX ENRICHED TECHNOLOGY

ABSORBS INTO WOOD

NON DRIP FORMULA

GLIDES ON EASILY

MINI MAKEOVERS

INSPIRED BY NATURE

The natural world is such a blossoming source of innovation; our feathered friends are the inspiration behind our Cuprinol Ducksback five-year protection. With its wax-enriched and non-drip formula, it repels water, **protecting** wood for up to 5 years.

STEP BY STEP

**Morning**

Hold plants away with garden canes or string.

**Morning**

Remove any weeds before cleaning.

**Afternoon**

Apply two coats of Cuprinol Ducksback.

**Afternoon**

Put plants back once surface is dry.

TAKE IT FURTHER

Add geometric shapes in contrasting shades to your newly painted fence for a fun and vibrant effect. Once the base colour is completely dry, use extra wide masking tape to mark shapes and fill in the areas using a roller.

SHIELD FOR ALL SEASONS

It isn't easy keeping the weather at bay, but Cuprinol Ducksback has it covered. This wax-enriched formula is water-repellent and gives excellent frost protection. From harsh winters to wet autumns, our protective treatment will ensure your fencing stays looking great for up to five years. Easy to apply and non-drip, it's shower-proof in an hour.

LET'S GO OUTSIDE

Wow guests at a summer soirée with these easy-to-achieve ideas for a stylish entertaining space. All you need is some basic DIY know-how and a few pots of long-lasting paint

1 BARBECUE STATION

Say farewell to running indoors and out for extras, and hello to a new pop-up worktop. Painted in Garden Shades Old English Green, a table and a fence panel - fixed with handy hooks - creates the ideal spot for serving meals.

2 COLOURFUL PLANTERS

To make striking planters, simply save tin cans and paint them with Hammerite Direct to Rust Smooth. This superior metal paint can be applied without primer and gives protection for up to 8 years.

3 SUNDOWNER BENCH

Cocktail hour, anyone? Give your garden bench a dash of sundowner style with a striped 'dusk' effect. Paint two wooden slats at a time in the same Garden Shades colour, moving from light to dark as you work your way from the top to the bottom.

EXPERT HELP

Marianne Shillingford

'With a beautiful palette and seriously tough technology, Garden Shades is my star pick when it comes to colouring – and protecting – wood outside. Better still, its texture allows the grain of the wood to shine through, meaning it's a natural choice when it comes to painting everything from furniture to fences.'

Look out for our stamps, right: they tell you about a product's key technology, so you can be confident that what you're buying really works.

We have produced product colours as accurately as printing will allow. Unfortunately, we cannot guarantee an exact colour match, and the colours contained in this guide should not be relied on as such. The appearance of the actual colour can be affected by the substrate and the texture of the surface. Wherever colour testers are available, please use them on the actual surface to which the product is to be applied before undertaking the application. This will give you a stronger indication of the appearance of the actual colour. If a colour tester is not available, then try the product on a small, inconspicuous area of the surface before undertaking the full application. Special precautions should be taken during surface preparation of pre-1960s paint surfaces over wood and metal as they may contain harmful lead. For further advice contact AkzoNobel.
