# Colours that last

## MADE FOR IRELAND

Upgrade home exteriors with expert colour advice from ready mix trios to the latest bespoke shades and our new colour chip laydown plus real life inspiration from around the country.

Dulux Weathershield is part of the Dulux Exteriors family

Visit [weathershield.ie](http://weathershield.ie) and [dulux.ie](http://dulux.ie)

# CREATING ATTRACTIVE EXTERIORS FOR DECADES

Weathershield is Ireland's most trusted choice of exterior paint giving you flawless results with shades made for modern and traditional homes.

Take inspiration from proven trio colour schemes and decorate your property with complementary shades that protect and transform any exterior feature.

Our new colour chip laydown features four different themes of colour trios, plus exterior wood and metal ranges along with a variety of bespoke colours.

Swap a ready mix shade in your trio for a bespoke one with over 850 to choose from in our latest fandeck and wear Weathershield with pride.

## A LANDSCAPE OF COLOUR

Every county in Ireland features homes that have been transformed by Dulux Weathershield. In our travels, we have found some of the most inspiring that show how well these colours look in an Irish light.

# YOUR GUIDE TO COLOUR THEMES

Together with Dulux Colour Consultant Cora Collins, we have designed a new family of ready mix colour selections that make choosing an exterior colour scheme easy.

COLOUR TRIO  
FROM THE  
MODERN COOL  
THEME ON PAGE 9

SWEET  
BLUEBIRD  
Door

Our new colour chip laydown categorises ready mix colours into four themes: **Warm Undertone**, **Tonal Spirit**, **Modern Cool** and **Earthy Vibes**. Each theme has warm, muted or neutral qualities that are brought to life by the colour trios, as shown on pages 8, 9 and 10.

Each trio palette gives you proven colour combinations inspired by our landscape for your stonework with coordinating shades for anywhere from windows to quoin stones.

If you want to add colour to exterior wood and metal, we have beautiful colour ranges in Satinwood and High Gloss plus a vast selection of bespoke colours from our colour mixing system for you to explore.

# HOW TO SELECT YOUR PERFECT TRIO SCHEME

Each of the colour themes give you a selection of shades that are proven to work together, so you can eliminate guesswork when choosing a scheme.

Whether you prefer cool, muted or warmer shades, we have colour combinations within these four themes that will enhance homes anywhere in Ireland.

## 3 STEPS TO CHOOSING YOUR COLOUR SCHEME

1. Choose a theme that best represents your home
2. Select a trio from within your chosen theme
3. Decide which colours you want on your walls, plinth, windows, etc.

### WARM UNDERTONE

Mellow, warm and contemporary, these colours are greyed off and suit our northern hemisphere light. Ideal for homes with natural stone or timber windows, these shades sit between brown and green in the colour wheel.

### TONAL SPIRIT

Colours with low contrast that flow easily from one to another, making them perfect for elongating a house like a bungalow. The neutral tones in this scheme mean they go well with all front door colours.

### MODERN COOL

Suitable for all house types, these cool neutrals sit between blue and grey. Modern homes with black, grey or white window frames are ideal for these shades. These trios would transform any house with limestone.

### EARTHY VIBES

Classic colours that suit traditional homes. These established earthy colours have mainly yellow and warm undertones that complement natural stone making them ideal for country homes.

# PREPARATION IS KEY

Correct preparation with the Dulux Weathershield system ensures the job is done right the first time

## STEP 1 | Preparation Products

**Fungicidal  
Wash**

Kills mould, algae and lichen. Protects against regrowth

**Stabilising  
Primer**

Seals powdery and chalky surfaces to give base for masonry paint

**Alkali Resisting  
Primer**

Primes alkaline plastered surfaces with excellent stain resistant properties

## STEP 2 | Masonry

### Ready Mix and Bespoke Colour

Superior flexibility for all weather protection | Superior dirt and mould resistance | Superior colour retention | Fast shower resistance\* | Protection against cracking and flaking | 38 ready mix colours on shelf 850+ colours mixed instore.

## STEP 3 | Front Door, Wood & Metal

### Weathershield Exterior Satinwood

Weatherproof | Quick drying, tough and durable | Water-based formula | 15 ready mix colours available | 620+ colours mixed instore.

### Dulux High Gloss

Exterior and interior paint | 17 ready mix colours available | 12,000+ colours mixed instore.

## STEP 4 | Make sure you have everything you need

- |                                  |                                  |                                     |                                       |  |   |
|----------------------------------|----------------------------------|-------------------------------------|---------------------------------------|--|---|

2021 Colour Card. For technical reasons connected with the printing process, the representation of the colour in photography may not exactly match the colour in the can. The colour chips on the centre section of the card will be much more accurate but slight variations between batches of paint may occur. Where more than one tin of paint is required, check that the batch numbers are identical and if not intermix before use.

Dulux, Weathershield, Cuprinol, Garden Shades, Let's Colour, the Dulux dog and the distinctive colour names are trade marks of the AkzoNobel group. © AkzoNobel 2021
